

IR250s

Tactical Infrared Illuminator

When your light amplification device cannot stand against the power of darkness, IR-250s is the only solution. As the name suggests, it achieves up to 250 meters of illumination distance in low-light conditions when used together with a night vision device. Thanks to its multi-use design, IR-250s can be used as a hand-held unit and can be attached to a Picatinny mount and used with remote control.

Up to 250 Meters Visibility

Convenient Remote Control

Easy to Attach

KEY FEATURES

- ▶ 850nm Powerful LED IR Illuminator
- ▶ Waterproof Enclosure
- ▶ Attaches to Picatinny Rails
- ▶ Wired Remote Control
- ▶ “Spot-to-Flood” Beam Focusing
